Following a heart attack in 1990, my wife and I have watched our diet very carefully in order to reverse heart disease. I think I am succeeding, and we are **much in favor** of the **Trans Fatty Acid in Nutrition Labeling proposal**. As CSPI says, it is overdue. At 79 I exercise vigorously and have no known limitations and no medication except aspirin. The labeling would help me to stay that way.

Sincerely yours

Bernard D. Leete
